CUSTOM PRODUCTION,
DESIGNED FOR YOUR NEEDS.

Welcome to BeZe

As an innovative leader in the gas connection hose industry, BeZe offers high-quality solutions equipped with advanced technology that meet the evolving demands of the sector. Our product range is designed to focus on durability, safety, and performance, ensuring reliability in every item.

At BeZe, our unwavering commitment to customer satisfaction enables us to uphold the highest standards in every product we manufacture. With an extensive distribution network and a strong presence both locally and internationally, we take pride in providing superior solutions that ensure the safe operation of systems.

About us

In 1994, we stepped into the sector with a natural gas installation project and implementation. In 2002, we began wholesale distribution of natural gas and plumbing materials with our extensive product range.

We have specialized in manufacturing, importing, exporting, and marketing under our own brands. Our company operates in full compliance with industry standards and certifications through brands such as BeZe, Katotix, Eco, Techpan, and Asens.

For 30 years, we have been serving the Plumbing, Construction, and Hardware sectors without compromising on quality. Since our establishment, we have maintained the same enthusiasm and dedication with your support. Our product range continues to expand daily, and we take pride in experiencing this growth with your contributions. We will continue to strive for excellence in the future.

Collector

BeZe collector cabinets provide strong and lightweight protection for underfloor heating systems. The galvanized steel body ensures durability, while the plastic cover enhances insulation and ease of handling.

GALVANIZED BODY & PLASTIC COVER

Product Code	Height (mm)	Width (mm)	Inner Depth (mm)	Weight (gr/m)	Box
29935	600	400	110	9,60	1
29942	600	600	110	12,20	1

Material : Steel - Galvanized
Colour : White (Similar to RAL 9016)
Cover : Plastic
Thickness : 0,7mm

Cabinet

Recessed-design units offer durable protection for the collector. Built with a galvanized steel body and painted steel cover, they resist wear and corrosion while ensuring a modern and clean look.

GALVANIZED BODY & PAINTED COVER

Product Code	Height (mm)	Width (mm)	Inner Depth (mm)	Weight (gr/m)	Box
30696	600	400	110	9,60	1
30702	600	600	110	12,20	1
30719	600	800	110	14,20	1
30726	600	1000	110	16,70	1

Material : Steel - Galvaized
Colour : White (Similar to RAL 9016)
Cover : Painted Steel
Thickness : 0,7mm
Type of installation: For indoor installation

Collector Cabinet

BeZe metal collector cabinets ensure secure housing for underfloor heating components. The galvanized steel body and painted steel cover offer high durability, while the recessed design allows for a clean and efficient installation.
